

Quickly free of snow...

for
small tractors,
yard loaders
& fork-lifts

TUCHEL-SNOW

L-SK

TUCHEL
MASCHINENBAU GmbH

... for little money.

Thanks to its various hitch-systems the L-SK snow blade can be easily attached to small tractors, yard loaders and fork-lifts and is even appropriate for the Tichel-Trac. Standard equipment includes spring flap segments, PU-lip (polyurethane), mechanical angling and height adjustable skids.

technical data		125	155	185
total width	cm	125	155	185
clearing width (in straight / angled position)	cm	125/ 107	155/ 133	185/ 160
weight*	kg	84	97	110
height	cm	50		
angling	degree	up to 30		

* without hitch system

Measurements and weights are approx. and non-binding.

options

- hydraulic angling (1 additional double-acting hydraulic drive circuit required)
- levelling
- wheels (ø 150 x 50 mm)
- road traffic equipment (warning flags & -holders, side-marker lamps LED)
- colour option

hitch systems

- Three-point linkage
- A-frame
- Yard loader hitch incl. levelling and pendulum compensation system
- Fork-tine attachment

The main features at a glance:

- interceptors on both sides included in standard equipment
- spring flap segments (anti-icing)
- optimum angle of inclination of the clearing lip, for perfect snow clearing
- edge bending (side and top) ensures high stability of the snow blade
- wheels instead of skids on option
